OBJECTIVE

Front-end developer with a solid background in creating user-friendly, responsive websites. Capable of working with JavaScript, HTML, CSS, and frameworks such as Tailwind CSS, Next.js, and React.js library. Knowledgeable about developing mobile-first user interfaces. Adept at creating scalable, effective solutions by converting user and business requirements into interactive interfaces. Devoted to being current with best practices and the newest developments in the business.

WORK EXPERIENCE

Front-End Developer Trainee | New Horizon, Abuja | February 2024 - April 2024.

- Using mobile first approach, I developed a responsive web design for a client's company main page, which led to a 30% increase in mobile traffic and improved user experience.

- Collaborated with the UI/UX team to optimize the front-end of a client's e-commerce platform, which improved the design and user experience.

- Utilized React hooks, Lazy loading and tailwind CSS to create optimized and interactive features for a client's website.

Front-End Developer Volunteer |HIQOS Technologies, Ikeja, Lagos | July 2023 - November 2023.

- Contributed to the development of a user-friendly website interface for a blog website using react.js.

- Assisted in the integration of sanity.io API to fetch data from the back-end to the front-end of an e-commerce website in Next.js.

- Supported the development team in the hosting of some sites to Hostinger and Vercel platforms.

EDUCATION

Bachelor of Engineering in Electrical/Electronics Engineering

Afe-Babalola University, Ado-Ekiti   September 2017 - October 2022
